

Edmonton Bulletin.

VOL. XVII. No. 70.

EDMONTON, ALBERTA, MONDAY, JULY 1ST, 1895.

SEMI-WEEKLY, 4 PAGES.

DOMINION DAY.
Public holiday to-day.
Banks are closed to-day.
There is a head on the Stony Plain.
Banks are closed for the holidays.
Mr. McNamara, M.P., went to Calgary on Friday.
Pomona lake is dry, the first time in many years.

W. McKenna, barrister, of Macleod, arrived on Thursday's train.
Judge Boulton arrived on Thursday's train and attended to some court business.
The printing plant of the Edmonton Herald arrived on Thursday's train.
The Commercial Union fresh eggs at 16c. to the 10 Vancouver and eastern eggs at 12c. to 15c.

P. McFarlane, ex-consul N. W. M. P., started on a trip to the old country on Friday's train.
W. A. Johnston, of Calgary, arrived on Thursday's train in connection with the Dominion fair.

Twenty-four settlers came north on Thursday's train from the United States; 10 to Leduc, 9 to Lacombe, and 5 to Red Deer.

Monks, Brick and Lathiers, Peace river, and Hargreaves, Slave lake, arrived last week with a large lot of fur which will be sold by competition this week.

A herring was working for D. R. Fraser brought a large sturgeon down the river on Friday last. It measured 5 feet in length and weighed 75 pounds. It was caught about 100 miles up the river.

Thompson's train brought in two cars of lumber from Golden, B. C., for Mr. Bennett, one car of sugar from Vancouver for C. F. & J. Galt, one car of flour from Winnipeg for the H. B. Co., and three way cars.

Two new postoffices will be opened shortly in the country east of Beaver lake, one called Vegreville in the Kansas colony of French-Canadians on Birch creek and the other in a Minnesota Norwegian colony in township 50 range 17.

FOR SALES: Thursday—H. A. Davis to W. B. Stennett, \$1,300.25; Adam to Jas. Walsh, \$419.50; Ian Short to W. B. Stennett, \$152.10; Peter Luted Jr. to Jas. Walsh, \$215; Peter Luted Jr. to R. Secord, \$97; H. W. McKenna to Jas. Walsh, \$182; J. J. Mellon to Jas. Walsh, \$181. R. Secord, \$725.

Hatfield Herald: While looking for some horses that were supposed to have strayed towards Hatfield this spring, Mr. Hield of Muskeg Lake found a bunch of seven cattle that he lost two years ago. They had rustled for themselves two winters, and when found were "lather fat."

Hot weather set in last week and the heavy weather ceased, it is to be hoped only for a time. The crops are well advanced, have had no lack of moisture, and can stand a dry spell very well. Still, more rain would be a benefit to the grain and a great benefit to the hay, which is short in the swamps. The outlook is uniformly good for an excellent all around crop.

R. L. ALEXANDER, immigration agent on the C. & E. line, made a three day trip around the Wetaskiwin district last week. He came north to Millet, siding or Pipestone and visited the settlements on both sides of the railway. He reports the crops looking well and the settlers well satisfied with their prospects. Most of them are poor and came in too late last season to get any crop but they have good gardens this year and their fields look well.

Free Press report of Calgary races: Great rent was added to Thursday's sport by the fact that Moosewa, the famous Indian runner, and Allen, of Toronto. Allen is a 100-yard runner, and the Indian a long-distance runner. The men have been pitted against each other with varying success and the match was looked forward to with interest. Bettors backed their favorites heavily. Over \$500 in pools was sold. Two hundred yards was the distance fixed. Allen got slightly the best of the start and maintained the lead the first hundred yards; Moosewa then closed up and Allen spurred, putting eight feet between him and the Indian and maintained this lead till with ten yards of the goal, when he seemed to weaken. The Indian seized the situation and by a mighty effort closed up with his opponent and shook by the tape a yard ahead. Time 20.45.

Several German families from East Prussia arrived at Leduc this spring expecting to take land which had been selected for them by a delegate the previous season in 1893, 1894, 1895, then surveyed. Two lots of sections on the west side of the township had been surveyed by E. M. Hultselt, B. L. S., but on the survey being made the township was found not to be up to expectations. They are anxious to have township 48, range 23 surveyed, as they consider that more suitable. It is to be hoped that the government can see its way to making this survey at once as there is a colony of some 20 families including those here and others on the way and preparing to come, who are interested. They are a good class of people and fairly well off, one man having brought 15,000 marks or about \$4,000 with him from Prussia. Aside from the requirements of this colony the township should be surveyed as it is only 6 miles east of the railway and near Leduc station.

At the recent annual meeting of the shareholders of the Banque Jacques Cartier, during the president's address, as it appears in the Montreal Trade Review, the following reference was made to the Edmonton branch: "For the first time since the ex-cessive the bank has gone beyond the limits of the province of Quebec to establish a branch, but although the distance may be great, the new office is located in a centre where the French-Canadian element has its importance, and which, by its position, its climate and the varied products of the soil, offers the best conditions for the future. Edmonton is in fact the chief line of a very important district, the development of which has surpassed considerably during the last few years that of any other portion of the Northwest Territories. Established since last fall only, the new branch has not only met all expenses necessary to its installation, but has contributed in a satisfactory proportion to the profits of the year."

TRAIN ON TIME.
Horse Hills picnic on Friday.
South Edmonton sports to-day.
Poplar lake picnic on Wednesday.
Barley is beginning to head on Stony Plain.

No meeting of the Royal Templars to-night.
J. V. Kildahl went to Beaver lake on Saturday.

Rev. E. B. Glass arrived from Whitefish lake on Saturday.

Saturday's fur sales: J. Beauchamp, \$99 to W. B. Stennett.

K. A. McLennan is erecting an addition to his dwelling 12x30 one story high.

Several of the Koney Islanders went out to their favorite haunt on Saturday.

St. Joachim's separate school closed on June 28th, and will re-open on August 12th.

The ferry at Victoria ceased running on Thursday, owing to an accident to the cable.

A. G. McKittick, Methodist missionary teacher at Saddle lake, is in town with his family.

Rev. J. F. Forbes, of Fort Saskatchewan, preached in the Presbyterian church yesterday.

As this is the 1st of July the BULLETIN is printed in the forenoon to allow the printers a half holiday.

G. R. Withey, watch-maker for C. W. Butler, returned home to Detroit, Michigan, on Friday's train.

Lieut. A. Hurst, of the Salvation army, leaves on Tuesday's train for Brandon to take a well earned rest.

DOMINION DAY sports at Fort Saskatchewan on Friday. Splendid weather, good sports and good attendance.

Wheat, barley and oats are reported in the stubble in many parts of the district and are covering the ground well.

Friday's fur sales: Turnbull from Jasper House, \$40 to Jas. Walsh; John West, Wetaskiwin, \$9.00 to Harrison Young.

The Minnow came down the river from Degagne's quarry on Wednesday last with one large load of stone and lime. She is lying at the H. B. Co.

The output of the creamery is increasing and is now nearly 300 lbs. a day. The first shipment, which will go by Tuesday's train, will be about 4,000 pounds.

A special meeting of the Edmonton school board was held on Friday evening, at which the accounts for June were passed and routine business transacted.

Monks, Rayner, McLeod, Fulton, Boyle, Osborne, Flater, Edmiston, Taylor and other members of the Koney Island club are celebrating at Cooking lake to-day.

Mrs. MacDonald, wife of chief factor Ewan MacDonald, of Lesser Slave lake, arrived from the Landing on Friday accompanied by her family and is the guest of Mrs. Cowie.

J. Graham returned from a long exploring trip in the Rocky mountains west of Jasper House on Thursday. He was looking for gold quartz, but has not yet divulged the result of his examinations.

A sample of fall rye in full head from the farm of Gottlieb Ducholke, N. E. 1/4, section 19, township 52, range 27, Stony Plain, was left at the BULLETIN office on Saturday. The straw is four feet six inches long.

Mrs. THOS. HENDERSON has a yellow Persian rose in bloom. The bush is an outdoor shrub and has flourished in Edmonton and at Rabbit hill for the past seven years, so it may be considered to be perfectly hardy in this climate.

T. HARDISTY, brother of F. A. Hardisty, arrived on Monday last week from Rat Portage on a visit to his brother, here. He formerly resided here and passed through in 1885 as a member of the 92nd battalion. He leaves for home on Tuesday.

A poster announcing the Territorial exhibition declares that every Canadian should attend the exhibition presumably because it is a Canadian enterprise. It may be remarked that the poster is printed in Cincinnati. A peculiar way of encouraging Canadian industry and enterprise.

F. A. HARDISTY returned on Friday from a visit to Lesser Slave lake. He went out in March. Fires are doing great damage to the timber in the country around Slave lake as well as on Peace river and will also injure the game. The fires are worse than they were in 1889. Slave lake is low, and also Slave river. Crops are fair and grass is very good at Slave lake.

P. McCallum returned on Saturday from a trading trip down the river to a point below Saddle lake. There are still a large number of miners on the river, but the high water is driving off a great many for a time, particularly those who were working near Pitt, where the pay bars are nearly all low and consequently soon covered by high water. He saw H. Wilson's trading sloop on its way down. Also Ross & More's boat in charge of J. S. McDonald.

E. W. HUBBELL, D. L. S., has completed the special survey of a trail from Edmonton to the Stony Plain reserve and has gone to Cooking lake to traverse Koney Island. He will start from Agricola and go south on the line between ranges 21 and 22. He has instructions to survey the Hay lakes trail from South Edmonton and it is to be hoped there will be no further delay in regard to that trail as the dispute between those who have fenced their land and those who want to travel on the trail has reached a very acute stage.

FROM VERMILLION.

E. J. Lawrence arrived from Vermillion Peace river, on Tuesday with an outfit of valuable fur. He left Vermillion on May 30th and reports that crop looked as well and as far advanced there at that time as it is at Edmonton now. The past winter was mild and the spring early. There had been enough rain, so that crops were not suffering as further up at the mouth of Smoky river. Mr. Lawrence farms extensively at Vermillion and has a steam saw and grist mill as well. He will remain at Edmonton to meet his daughter, who has resided for some years in Chicago, and who will return with him to Vermillion.

RIVER rose considerably last night.
Vote on school debentures Wednesday.
The post office will be open to-day at 5 p. m.

SUNDAY school convention at Red Deer this week.

THE W. C. T. U. water barrel is well patronized.

CHRISTIAN Endeavor convention at Edmonton on Friday next.

GOSPEL temperance meeting in Hourston's hall yesterday afternoon.

THE Koney Island club's sail boat will be lowered on Cooking lake to-day.

THE proprietor of the BULLETIN has ripe cultivated strawberries in his garden.

FROM PEACE RIVER.

Brick Bros. arrived from Peace river on Friday with a large lot of fur, which will be sold at public competition some time this week. They left Peace river on June 17th, making a quick trip. The past winter was milder than usual in Peace river and thirteen head of cattle belonging to the Messrs. Brick wintered without hay or shelter at Old Wives lakes, a few miles north of the mission. The Messrs. Brick live near but not on the mission started by their father.

The mission is in charge of Rev. Henry Robinson. They have started a new farm a short distance away where they have about twenty-five acres of crop. About six acres of the crop on old land looks well, but the remainder does not show a very good prospect, owing to dry weather. The spring was early and there has been little or no rain since. Most of the grain is only beginning to come through the ground. This will greatly dishearten the natives who have begun to farm a little, as they will likely not have seed next year. The prairie from the mouth of Smoky river to Dunvegan was burned over this spring. The fire is still at work in the woods in all directions destroying vast quantities of timber and no doubt destroying a great deal of game, as at this season the young animals are coming and cannot save themselves from the fire.

The bears, which are numerous in Peace river and which depend chiefly on berries, will also be at a loss, as the berries will be destroyed by the fires. During the past winter rabbits were numerous and fur was plentiful. The Indians, therefore, had a very pleasant winter. At Slave lake the crops are looking better than on Peace river, as there has been more rain. The H. B. Co.'s herd of cattle on Peace river are still affected by disease and several oxen, which were bought from the ranch to work on the Slave lake portage, have died. The disease seems to be confined however to the breed in which it was first noticed, namely, the Polled Angus. The Messrs. Brick met H. H. Lawrence and son at the Landing on their way to Peace river and loaned their boat to him for the transport of his mill machinery to the head of Lesser Slave lake on its way to Vermillion.

BASE BALL.

A game of base ball was played in Edmonton on Saturday between a Sturgeon and an Edmonton team. The score looked as though the Edmonton men might be better at marbles than base ball. Geo. Thomson was umpire. The following is the score:

| STURGEON. | |
|-----------------------|----|
| Steve Samis, captain, | 7 |
| B. C. Croat, | 6 |
| E. Pagan, | 7 |
| L. Samis, | 5 |

Standing advertisement—30 cts a line for 3 months.

FRANK OLIVER, — PROPRIETOR.

EDMONTON BULLETIN, JULY 1st, 1906.

THE SPUR TRACK.

Answers have been received by the town council from the Calgary & Edmonton Railway Company and from the C. P. R. in reply to their communication regarding the proposed spur track. The plan of survey made by engineer Bruce had been forwarded to each with a proposition that the town would pay a certain amount of money absolutely to either company in consideration of one or the other constructing and operating the proposed spur. From the answers received it appears that while both companies are favorable to the scheme, owing to their present relations with each other, the C. P. R. holding the C. & E. under lease with the option of purchasing, neither will undertake it, as their doing so might prejudice them in their final arrangements with each other. Sir William Van Horne's letter is very definite however on the main question, namely, that the C. P. R. company will deliver and receive freight at the end of the spur if constructed and kept in repair, without extra charge over the rate to South Edmonton station. This is a very fair offer and should be accepted and clinched without delay. Every one will agree that it would be very much better for all interested here to pay a certain amount—even a very large amount—to the C. P. R. or the C. & E. to have them construct the spur track than that it should be constructed under the management of the town or of the electric railway company. But in any case the town would have to pay for it, and now that it is settled that it must be built at the expense of the town under the charter of the street railway company, there is only one thing to be done about it and that is to go ahead. The season is wearing on and there is no time to lose if the track is to be completed before fall and it must be taken for granted that it is the intention of every one interested to have it completed by that time. Already in surveys and charter nearly \$2,000 have been expended on this project. Had the grade been found difficult or the railway company refused to operate it, then the money spent might be considered thrown away, and the matter be allowed to drop. But when this has not been the case, when the grade is easy and the company willing to operate, the matter is in our own hands and it remains to be seen if we have the courage and ability to carry to a conclusion this important project. As yet we have only a general estimate of the cost of the line. We require a detailed statement of cost and this should be secured at once. Particularly it should be found out what arrangements can be made as to the use of new or old rails, which would make a vast difference in the total cost. Also there should arrangements with the C. P. R. as to engineering, so that when completed the work would be acceptable to the company. If amendments are required to the electric railway charter they should be secured, at once and the application made for the usual land grant. All these things have to be done, as well as the actual labor of grading and bridging, and they cannot be started too soon. In order that the business may be carried on in a business like way it is also necessary that the street railway company should be properly organized. The town council as a council has many things to look after as well as the railway, and it is no disparagement to the members to say that acting as a council they are not in shape to transact the business of the railway to the best advantage, as it requires to be transacted if the road is going to be built this season. There has been a good deal of delay—necessary and unnecessary—so far. There will be a great deal of necessary delay yet. It is for those who have assumed the responsibility of directing the affairs

of the town for the year, to see, while everything is done with due caution and with a due regard to the best results for the least money, that there shall be no unnecessary delay.

TERRITORIAL EXHIBITION NOTES.

REGINA, June 24th.

His Excellency the governor general has signified his intention of officially opening the Territorial exhibition on the 30th of July, although put to great inconvenience, as it will necessitate his going west three weeks earlier than was his original intention.

His Excellency Governor McConnell, of Idaho, one of the cleverest speakers in the Western States, has accepted Lieutenant Governor Mackintosh's invitation to be present at the opening of the exhibition on the 30th July.

The Regina bicycle club meet promises to be the greatest wheeling event of the season. The entries close on July 25th, and the races will no doubt be witnessed by thousands, as they take place on the speeding track of the Territorial exhibition grounds. The Northwest championship for a gold medal will be one of the events. The programme contains fourteen races in various classes. It is proposed to hold them on the 3rd and 5th of August.

The only professional foot races during the exhibition, will be a 100 yards, 220 yards and long distance race. It is expected Moosewa and Allen from the west and other runners from the east will compete.

The Indian polo match is being arranged, as well as Indian horse races.

The Indian industrial school exhibition which takes place during the Territorial fair will be superintended by a government official and will be a splendid object lesson of the old and the new, the modern and the civilized Indian.

Notwithstanding the fact that the prize lists have only been out a short time, a large number of entries in the various classes have been already received. It would be well for those who intend exhibiting to make their entries as early as possible, and state what amount of space they will require for their exhibits in the main building, thereby securing fair play for themselves and enabling the officials of the exhibition to properly classify and enumerate their entries.

Over 14,000 prize lists have been sent to the Territories and Manitoba, including a large number of postmasters, secretaries of agricultural societies, and all the stock raisers and breeders throughout Alberta, Saskatchewan and Assiniboia.

IMPERIAL BANK.

The annual general meeting of the shareholders was held at Toronto on 19th June. The statement of the bank for the year just closed exhibits a strong position notwithstanding the depressed condition of trade everywhere. The profits for the year, after deducting charges of management and interest due depositors, and making full provision for all bad and doubtful debts, amounted to \$250,000.88. Dividends amounting to \$176,649.60 were paid, being 9 1/2 on paid up capital of \$1,963,600.00. The reserve fund is now \$1,156,800.00. Deposits \$9,499,479.00. Notes of the bank in circulation \$9,123,544.99. Total assets amount to \$13,996,349.62. \$1,648,779.04 of which is gold and silver coin and Dominion government notes. A strong feature in the statement is the large amount of assets immediately available \$6,969,129.64. Other current loans, discounts and advances amount to \$6,643,009.19. The bank is in an excellent position to avail itself of any revival in business. The president in his report stated that he was glad to know that an improvement has set in both in trade and in prices. The Imperial bank has continued greatly in the development of Manitoba and the Northwest, having branches in Winnipeg, Brandon, Portage la Prairie, Calgary, Prince Albert and Edmonton. The branch in Edmonton was opened on 4th of Sept. 1891, immediately after the completion of the railway. The bank is now extending its operations to British Columbia, having secured premises in Vancouver, where a branch is to be opened in the course of two or three months.

Winnipeg Commercial: Prices of binding twine will be about 1 to 1 1/2c. lower than last year, as anticipated in a previous issue. The price to farmers at Manitoba points for red cap and blue ribbon brands, (Consumers' Cordage Co. brands) will be as follows: Red cap, less than 500 pounds 8 1/2c; blue ribbon, 9 1/2c; lots of 500 to 1,000 pounds 1c less off either brand; 1,000 to 2,000 pounds 1c less; 2,000 to 3,000 pounds 1c less; 3,000 to 5,000 pounds 1c less; car lots 7 1/2c for red cap and 8c for blue ribbon. These are delivered prices at Manitoba points free of freight and payable November 1, without interest. For Assiniboia territory prices will be 1c higher than for Manitoba, and for Alberta and Saskatchewan territory delivered prices will be 1c higher than Manitoba. For spot cash red cap is quoted at 6 1/2c and blue ribbon 7 1/2c delivered at Manitoba points free; lots of 100 to 5,000 lbs. red cap, spot cash is quoted at 7c and blue ribbon at 7 1/2c delivered at Manitoba points. These low prices for less than car lots are given to encourage cash business. The discount for cash on small lots it will be seen is 1 1/2c. per pound, which is a big reduction and should induce farmers to make a big effort to buy for cash. There is another brand of Consumers Co. twine, known as "Sterling," which is quoted 1c under and cap in our lots. The Mackay-Harris Co. have two special brands, called "Standard Manila" and "XXX Manila." These they quote at 1c and 1 1/2c. per pound respectively, higher than red cap, delivered at country points, in all sized lots, in proportion to the price of red cap for the same quantities. The Plymouth twine, considerable of which is being placed in Manitoba this season, is quoted at 5 1/2 to 7c. as to brand, f.o.b. at the point of supply in the United States, subject to a freight rate of 52c. to Winnipeg and duty at 12 1/2 per cent.

IN THE SUPREME COURT OF THE NORTH WEST TERRITORIES, NORTHERN ALBERTA JUDICIAL DISTRICT.

In the matter of the real and personal estate of James Reid (deceased.)

On application of John Brown, the executor of the last will and testament of James Reid (deceased) and upon reading the affidavit of Sidney Stockton Taylor, I do order

(1) That all persons and creditors having any claim against the estate of the deceased file the same with S. S. & H. C. Taylor, of Edmonton, aforesaid, advocates for the said John Brown, as executor, aforesaid, within four weeks from the publication of this notice in the Edmonton BULLETIN, a newspaper printed and published at Edmonton semi-weekly, accompanied with a statutory declaration verifying the same.

(2) That this order shall be published in the said newspaper twice in each week for four consecutive weeks and that it be a sufficient notice to all persons, that at the expiration of the time fixed above the said John Brown shall be at liberty to distribute the assets of the said deceased or any part thereof among the parties entitled thereto, having regard to the claims only as to which the said John Brown has then notice, and that he shall not be liable for the estate or any part thereof so distributed to any person of whose claim the said John Brown shall not have had notice at the time of the distribution of the estate or any part thereof as aforesaid.

Dated at Chambers at Regina, this 7th day of June, A. D. 1896.

To Standard II.—Lorne Round, Willie Graydon, Mary Campbell, Herbert Anderson, Charlie Chumack, Charlie Matheson, Rose Goodridge, Percy Round, Florence Butler.

Other promotions will be determined by the results of the July examinations.

THE HOUSE BURNING CASE.

The following is a summary of the evidence given in the case against Robert Robinson and John Hill charged with burning the house of Robert Shaw, on the northwest quarter of section 30, township 50, range 25.

John Delong, who lives on the northwest quarter of the same section, said that James Elliott lived on the southeast quarter and Thos. Lawrence on the southwest quarter. The prisoners live on section 34 in the same township and range, about four miles from Shaw's place. Witness saw the fire about 12 o'clock on the night it occurred but did not go over as he thought it had gone too far to save anything. Went the next morning and saw burnt straw on the door steps of the house. Thought the straw had been carried from the stable, which was about 30 yards away. Saw the defendants the evening of the fire at Mr. Elliott's between eight or nine o'clock. They were borrowing a disc harrow from Mr. Elliott. In going home they would go through Shaw's place. It would take about two hours drive to go from Elliott's to their place.

Mary E. Larue lived on section 22. Knew Robinson and Hill and lived about two miles from their place. Saw Robinson and Hill the night of the fire at my place. They came about nine o'clock. I got supper for them and we chatted a little while after supper. Cannot say how long they were at my place. It took me and my son George one and a half hours to get from Shaw's place to my place.

George Larue remembered seeing defendants at his mother's place about nine o'clock on the night of the fire. They had something to eat and remained a few minutes.

James Elliott heard of the fire on the following morning, from Mr. Lawrence. Defendants were at my place at eight or nine o'clock on the night of the fire, with a wagon and team. I went to bed about ten o'clock or about an hour and a half after they left. I went to the scene of the fire a few days after it occurred. Robinson got a pair of boots from me some time before the fire. They were a pair of heavy shoes, heavy soled. Think that Robinson told me after the fire that he had had Shaw's home stead cancelled. Shaw took the place up three years ago last eleven of May. There is about four acres broken on the place and same machinery there. I understood from Robinson that Shaw had until July 7th, to show cause against cancellation. I understand from that that his cancellation had been made previous to the fire. No reference was made as to who would be loser by the fire. There is a swamp on Delong's place in which there was a fire about that time. I don't know whether the fire crossed the creek or not. It would have to pass pretty green bush on one side and dry brush on the other to get to the place.

Robert Shaw: Am the person who laid the complaint. Have five or six acres broken. Was on and off my place last summer up to the first of October. From that time until April 17th I was steadily on the place. Sowed two acres of wheat on April 14th and then came to South Edmonton, leaving my man in charge of the cattle on the place. Went out on the morning of the 2nd of May and came away with my man and stock. Left a mower and rake, some furniture and household effects. Left one and a half acres ready to seed and did not intend to abandon the place. The next time I was at the place was on the night of the fire, about 12 o'clock. Herbert Halpin was with me. From the conversation I had with Delong next morning I judge the fire must have started about 10 o'clock. I examined the premises and found tracks of straw from the stable to the house and found a heap of ashes and cinders on the steps of the house. The nearest fire was not nearer than two miles. There was no fire in Delong's swamp at that time. I came to the conclusion that the place had been set on fire. When I arrived at the place two men named John and August Hesselein were there. On the ninth of May Robinson, Hill and George Larue came to my place while I was away for hay. They made certain statements in the presence of my wife and Herbert Halpin. No conversation passed between me and defendant Robinson since the fire. Robinson and Hill left about the 13th of April and Mrs. La Rue and her family about the 19th. While defendants were living with me I had a little difference with Robinson. I had no

difficulty with Hill. I have no other personal knowledge or reason for charging the defendants with setting my place on fire. I got the notice of cancellation the first mail after the 7th. Everything was in the house except the moving machine and rake. There was no other person there when I got there except the two Hesseleins. The morning after the fire, just as Delong had left, I and Halpin went down the road. We saw a wagon track, on which we started just a little west of the bridge. We followed it across the bridge, and it made a great curve to the south, then went in an easterly direction and struck the road allowance again between my section and 21, and then continued east. We had previously observed and followed boot tracks from near my fence at the southwest corner of the bridge across the bridge. These were boot tracks coming westerly. We followed it easterly about a mile. From that point we noticed the same boot tracks going both ways. The next day the 22nd of May, accompanied by the police I followed the same tracks from the bridge running in off the road at the north and coming out where we saw the road the previous day.

George LaRue re-called said I don't know of any man being lost. A man came to my mother's place from the west wanting to go to Leduc. I sent him back to Elliott's and told him that Elliott would tell him. He came off the straight road and turned off to the right at my place. To get back to Elliott's he would have to go within 30 or 40 rods of the bridge and turn in a southerly direction to Elliott's.

Thos. Anderson, Dominion land agent, said that Robinson had applied to cancel Shaw's place on May 4th, in favor of Mrs. Agnes Robinson. Robt. Shaw's declaration of value of improvements is \$700.

Robert Armstrong, step-father of defendant Hill lived in South Edmonton and knew nothing about the fire.

Wm. Coe lived 9 miles south of Edmonton. Had conversation with Robinson in April about cancelling Shaw's place. He said he would do it or had done it. I asked him if Mr. Shaw had not a house on the place. He said yes but it would be an easy matter to slip a coal into that. I said he had better be careful. He said it did not matter as the neighbors were all down on him.

H. Houghton: Was in Shaw's employ. Arrived at the place with Shaw when it was burning about 12 o'clock. It was burned to within about four feet of the ground. Saw the first place when about six miles off. We were going about three and a half miles an hour. The two Hesseleins were shifting some stuff from the house when we got there. It was a starlight night, not moonlight. I came to the conclusion that the place was set on fire because the fire could not get to it from the outside. There was ploughing on three sides of the house. The creek was on one side and the road on the other. There was no indication of a prairie fire running up to the house. There was straw carried from the stable and placed on the front doorstep. I crossed the bridge and found fresh footprints going towards the east. On the road I traced them about 100 yards. Mr. Shaw and myself afterwards traced the boot tracks along the road for nearly a mile. We also discovered the footprints going both ways on the road 300 yards from the bridge. We struck a wagon track at the corner post on the Leduc trail. We followed it down a little way and it turned off to the right, which would be west. We still followed it till it struck a trail going from the bridge to Mr. Elliott's. Forget which way the wagon was going. Heard Robinson say to Mrs. Shaw in her house in South Edmonton that Mr. Shaw ought to be at his place as it was liable to be burned. Mrs. Shaw asked him if there were any prairies fire around. He said "No, but you don't know what might happen." This conversation took place on the 9th of May. Hill and Mrs. LaRue were there. Robinson were rather big boots with felt socks in them. In going out to Shaw's place we passed Mr. Knowles place at Rabbit Hill, which is about nine miles from Shaw's place. Met two teams on the road near Knowles' place about dark. Met them about half an hour apart. We met the second team before we saw the glare of the fire. Did not hurry when we saw the glare as we did not know it was Shaw's place, until we got within half a mile. Hesselein's place is half a mile from Shaw's and can't be seen from it. When Delong came to Shaw's place the morning of the fire, if you go to the top of the hill you might strike a wagon track. I think the wagon track went to Mr. Elliott's. Only saw boot prints where the ground was soft. Did not see a whole boot track anywhere. The sole of the boot was short and broad.

R. P. Pettipiece, publisher of the South Edmonton News, had received two letters in the spring, which he thought referred to Mr. Shaw but there were no threats. No names were mentioned. One was signed Robinson. Burned both letters.

Thomas Allen, South Edmonton. Knew the defendants and had heard them speak of Shaw's place as not having enough improvements on it to hold it. Had heard that Mrs. Agnes Robinson, mother of the defendant, came up from Ontario with me this spring and is still with me. Before I went east there was talk between Robinson and me about getting a place for his mother. Robinson never told me he had applied to cancel the place for his mother.

Corporal Butler, had followed the wagon track mentioned by previous witnesses. The wagon was going east. The horses had no shoes on. Measured one of the boot tracks—the left foot—it was twelve inches long by five inches on the broadest part of the sole. The heel two and three quarters inches by three inches. Found two sets of foot tracks, which came together about fifty yards east of the bridge. The tracks would be about a day old. If there had been nails in the sole of the boot it would have shown. Defendants told me they had been at Elliott's and LaRue's the night of the fire and got home about twelve o'clock. (Boots produced) Am satisfied that the boots produced are the ones Robinson was wearing when I saw him on May 22nd. The measurement is 11 inches in length by 4 1/2 inches in breadth and the heel 2 1/2 inches by 3 inches.

Thos. Bennett, land agent South Edmonton, recognized Robinson as the man who had applied to have Shaw's place cancelled. The reasons he gave were that there were no improvements on the place to speak of, only a shack and a few acres broken, and the man had not been living on it.

Case will be continued to-morrow.

LA BANQUE JACQUES CARTIER.

Montreal Trade Review.

In reading over the statements of the various banks it is quite monotonous to find them all showing the same general results of the past year's business. They one and all, made enough to pay the usual dividend, with a small surplus, rarely enough to put anything to the reserve fund. The Jacques Cartier has the same record as its neighbors. The net profits were \$45,323; this furnishes \$35,000 to pay two half-yearly dividends of 3 1/2 per cent. each, and \$10,000 surplus, which was not regarded too small to add to the rest, which, by this addition, was raised to \$255,000, which is 47 per cent. of the capital. The deposits amount to \$3,265,000, and discounts \$3,081,000 the circulation \$340,407. A branch has been established at Edmonton, N. W. T., where rapid development is taking place, promising to give a very profitable business to this new office. President Desjardins and Managing Director De Martigny, very fully earned the cordial vote of thanks passed by the shareholders.
